

Resources Transfer Calls Brownlee To East

If It Will Help Alberta the Bulletin Is for It

Edmonton Bulletin

HOME EDITION

VOL. XVII, No. 168.

EDMONTON, ALBERTA.—Alberta's Oldest Newspaper—FRIDAY, DECEMBER 17, 1926.

2 CENTS. On Trains and News-Stands Outside Edmonton Five Cents

Anne Caldwell, who has just been awarded \$30,000 in a battle against the oil companies, hopes her case "will serve as a lesson to a lot of young girls. Let's hope it won't."

President Coolidge is determined to enforce compliance with prohibition laws. He must think he's in office from now on.

Important Information Valued by the New York Stock Exchange. "With his new book, Mr. Lester's father will telegraph him. Contributors to her, while in him to tell the form of a fruit cake he has made."

We understand that Mr. Tugman will speak about his new book at night. And his talk should be good. He's had a hard time.

An Ontario lawyer, Premier Ferguson will be expected to make good by eliminating the bootstrap. Well, there's no harm in expecting.

DURKIN
 Durkin is supposed to have driven these two mountain lions—snapped by our photographer in an Edmonton hotel room. The lions were captured. Unfortunately they came too late—someone else had got Clark's gun.

A lady reader wants to know how she may become a movie star. She says she wants to become a heavyweight pianist.

As George Washington never told a lie he couldn't have greeted everyone with "Pleasea meetings".

New Jersey spent \$16,400 on the Hall-Mills case—and got more than twice as much back. The state did with her \$2,000 expenditure.

One question we would ask is: Is Alfonso Farmilo in favor of employing men to scrape the snow off the ice at street intersections?

Mosquini has imposed a tax on bachelors. That guy hates to think that man's more intelligent than himself.

"Menon! See! Wonderful Wireless Entertainment"—And he had only one eye!

Lord George says China is fighting for her fundamental rights. Yes, we always thought so. What was she fighting for?

"New Process Makes Water Taste Like Honey" says the Border Cities Star. No, doesn't an old process.

Bolivian proposes to tattoo the hands of voters to prevent their voting again. So far as we're concerned, it would prevent our voting once.

A NEW ENCYCLOPEDIA
188. Imperial Justice Since a song of evidence, Pugsley, the dog, was found. Found to bear no liquor seal. Didn't he know? When your case is opened, Judge takes a look. It's not for life. You're a lucky dog. Nine dogs full of evidence. Pugsley full of cash. Dogs are born to man. Houndy, bold and rascally. Dogs are never seen. Handi-crafts from view. All of you'll ever hear: "Dogs have got a place."

Almanac
(Copyright)
Friday, Dec. 17—Twenty-third world record holder of persons of exception by discovering made in bugaboo, B.C., 15,756.

"I love to hear the lullabies grow." Those shrill annoy me not. Their music isn't the music I want. I wasn't born a poet." —Tennyson.

DAILY HOROSCOPE: Venus—The Jupiter-Uranus and Mars-Saturn are all in heroic aspect today; but the Sun is in the same. Steeplejacks born between the last and middle Conjunctions, while birth day is the most suspect and the best.

HOUSEHOLD HINTS
An empty cigar box, covered with a piece of cloth and with baby oil rubbed on it, makes a lovely handkerchief box. Handkerchiefs are becoming more and more in gainful favor in many quarters, but the cost of their decoration to pieces decorated with soap. Handkerchiefs should be kept clean in the monotony of hospital life. Will you allow them to be disappointed?

LAWYERS FAVOR PRIVY COUNCIL APPEAL

Premier Going to Ottawa

Will Leave Dec. 29 to Discuss Natural Resources Transfer

Albertans Spend \$8,000,000 For Gasoline During 1926

SANTA CLAUS TO FILL STOCKING HOSPITAL STAFF

One Tenth of Month's Salary Awarded—Good Surplus Shown

To take up with Dominion authorities many inter-governmental questions, including the natural resources transfer agreement, Premier Brownlee will go to Ottawa December 29.

Cheered by the news from Ottawa, the Hospital Council has decided that the operations of city hospitals had been carried on with a surplus of \$27,343 for 1926, the hospital board as the final act of the year played its role of Santa Claus on Tuesday morning and voted staff members of the Royal Alexandra and Isolation institutions a bonus amounting to nearly \$700 as a Christmas present.

The board also voted a gratuity of ten per cent of one month's salary for all those who had been in service during the past year or more.

Saskatoon Discards P. R.

Saskatoon electors decided by a large majority to abandon the proportional system of electing their city council and to return to the method by which a voter's votes for the candidates he wants elected and for no others. Edmonton electors would likely have done the same thing if they had been given a chance. The proportional system is in existence here not because it is conspicuously popular, nor because any discernible benefits have resulted from it, but just because it is.

Redition in Control.

News from China is getting to be more intelligible, for while the newspaper readers of the rest of the world may give thanks. Apparently the actions which have been punctuating heads without leadership have balanced themselves together under the leadership of what is called a Government at Pekin, and what is called a Government at Canton.

The Cantonese are very evidently getting the best of it. They have been gaining ground at a remarkable rate, and an entire new generation and speaks both superstitious leadership and better equipment than their opponents. The downfall of the alleged power at Pekin is said to be a matter of time only, and not much of that.

The Cantonese are represented to be bold, in character and aims. That would explain where the Chinese masses have leadership with which to spread on the campaign and make such unswayed headway. China has doubtless been supplying both, as part of the world war it is waging for the overthrow of all authority but its own.

Our Foreign Trade.

Canada's trade with the outside world continues to expand at a surprising rate. For the last twelve months the total stands \$223,000,000 more than that for the preceding year. Our exports in this period exceeded the imports by \$27,000,000, which represents the trade balance in our favor.

Canadians continue to buy from Great Britain about one dollar's worth of goods for each three dollars Great Britain spends for Canadian products; and to buy fifty per cent more goods in the United States than they sell there.

These currents of trade are of course largely fated by geography, and how far they can be affected by sentiment or by political action is uncertain.

Perhaps the discussions at the Imperial conference suggested some way in which it would be advantageous for Canadians to do more of their buying in the United States, where their orders are needed and where the prices were lower. To go build on the economic strength of the Empire. An extension of the British preference would doubtless help to that end.

The Gas Rate Decision.

The decision of the Appeal Court in reference to gas rates was a definite and emphatic if it is disappointing to those who hoped that the prices named in the original franchise agreement were still binding. The finding of the court was unanimous, the five judges agreeing that none of the contentions raised in behalf of the city was sustainable and thus making a clean sweep of the old.

Unless the matter is carried to the Supreme Court of Canada, the law governing that phase of the relations between the city and the company is interpreted beyond misunderstanding, and not until further controversy, the gas user, and the community at large will know what they now know precisely what is what is in respect to this much-discussed and very engrossing matter, and where a modification of the rates must be sought. The finding closes the doors of the courts against litigation on the rates question, and refers the problem concerned to the Public Utilities Commission.

It will be noted that the authority of the Commission is declared to be "continuing" as well as "absolute". This presumably means that the Commission has power not only to revise the rates now, as being the end of the three-year term of the franchise, but also to do so again, but that the Commission also has power to fix rates at whatever figure is thought proper for the future, and during the whole life of the franchise.

The proceedings of 1922, it appears from the findings created an entire new situation as between the company and the city at least as regards rates. The action of the city council and the Legislature freed the company of its contractual obligations in respect to rates, and established the principle that the rates charged ought to be sufficient to meet the company's financial obligations, that is, to guarantee a return on the money borrowed and invested in the enterprise. Future rates, it is to be supposed, will be fixed on that principle, and set at such a scale as the Commission considers necessary to meet operating expenses and to cover interest and principal charges on the capitalized cost of the plant.

What the franchise agreement said in that connection does not count.

The question will be raised in a good many minds whether the rate clauses were the only ones affected by the action of council and Legislature in 1922, and whether the franchise agreement was of more practical consequence to both the company and the city than that respecting rates. When that section was changed, were the other obligations of the company, and concessions granted the city, also affected, so far as the agreement goes, and made contingent upon the earning power of the company being maintained?

Influence By EDGAR A. GUEST

Can life be unimportant? Since we see that every individual on the earth comes with the hopes of many a birth, from the first tiny sprout to the mighty tree. Others have dreams of what he is to be, and others have ambitions of what he is to do. Share in his shame or glory in his worth, And find in him their future destiny.

DOROTHY DIX

Treat a Stubborn, Contrary, Mulish Husband as You Would Any Other Donkey—Cajole Him and Pretend You Want the Things You Do Not Want—He Will Fight for the Opposite and Thus Give You Your Way in the End

A woman writes asking for a reliable recipe for managing a man with a contrary disposition. Her husband she says, admits that he is of a particular temperament, but she does not know how to treat him so that he only knows the right way to treat him.

So far the lady has not been able to find a man who has the same nature and generosity of her husband, and she seeks advice from other women who have been put against the same sort of proposal.

Of course, one would like to say that the best way to treat a contrary man is to ignore him over and over again, but unfortunately women lack the physical strength to do this.

Women, however, can manage him by means of threats, threats which our efforts civilization discourages much, though.

But that is left, then, for a man who is married to a man with a mulish disposition to treat him as she would any other donkey who hasn't sense enough to do what is right, and proper, but who has to be cajoled along the way he should go.

The discouraging thing about contrariness is that it is an outward and natural trait, not a personal one, but unfortunately women lack the physical strength to ignore him over and over again, and besides which our efforts civilization discourages much, though.

You can never do anything with him or her and it is useless to try, and you will be bound by beating up against a stone wall of narrowness and precision in their ways.

Therefore, if you find that a man or woman is contrary by nature, turn and flee from them if you would your happiness, though you may in very steps of the way make your discovery later if you catch a donkey for better or worse, make the best of it by learning how to document him or her properly.

One can never do anything with him or her and it is useless to try, and you will be bound by beating up against a stone wall of narrowness and precision in their ways.

If you want to have the paper painted in green instead of purple, don't waste time, just tell him what you are going to have green, or your donkey will put his paint down in green, and if you want to have the paper painted in purple, suggest the idea of green paper, and when you perceive that the time is ripe, just tell him what you want, and if he is a good donkey, he will say green and berate you for not having thought of it yourself before.

In the next place, remember that the law of contrariness always works backward, so that you can work a mulish husband by it. Never show that you are keen to do anything or go anywhere that you have set out to do, and you will be bound by a mulish confirmation.

You will have determined to go to the beach at the shore, send off and get a lot of advertisements of mountain resorts. Mr. Mule will immediately be filled with a mad enthusiasm for the sea and refuse to come along with you, and to the reader you will go to tell all about who is being left behind.

Avoid all arguments as you would the pestilence. An argument with a contrary man is like a mosquito that sets a day makes it impossible.

If he says black is white, let him go at that and he may forget what he said, and a donkey, having no mind to change, can't possibly do so.

Therefore, no matter how circumstances change, or how big a fool view of a thing he may take in the first place, he will be bound to stick to it, but let all girls who are married to a contrary man to go busy with the salve and plaster him over, with fulsome compliments.

If he tells him how big and how strong and wonderful he is, and how much he loves his wife in particular, as will eat out of her hand and she may do with him as she will.

Men do not realize it, but there's nothing that disgusts a donkey more than a woman who is married to a man who is married to a contrary man to do but get busy with the salve and plaster him over, with fulsome compliments.

The woman who is married to a contrary man must doubtless put up with him and see what ills and灾害 Heaven sent her. But let all girls who are married to a man who says "I'm all right" know how to manage me."

The male is the most unattractive of all animals and only good as a least of burden. He is impossible either as a pet or a companion.

DOROTHY DIX.

Waste Basket Used to Post Nine Letters

Mr. and Mrs. E. Noble to Spend Christmas Here

After three years spent at Yukon River posts, Mr. and Mrs. E. Noble, former Edmontonians, will return to Edmonton for a three month holiday. They will arrive in Edmonton before Christmas.

Mr. Noble returned to Edmonton just after the close of the Yukon River's 1924-25 season on the wheel at Yukonhouse when the seahawks took him away from the boat, and was taken to Vancouver where he remained for a time, married Miss Grace Morrison, daughter of Mr. and Mrs. Yukonhouse. Mr. and Mrs. Noble are again for several weeks.

Mr. Noble is a sister of Deputy Chief Matt Blackwood, the 100th mounted police force.

The recent inter-year camp competition was a success, the return made at the meeting of the executive of the Canadian Mounties Association.

Discussion took place on the plan to be adopted by the Mounties in the choice of a new campsite.

We reserve the right to limit weekly quantities of Groceries & Supplies to family needs.

UNIVERSITY ACTIVITIES

"A Study of Spanish France," the subject of a paper given by Miss Pauline to the French club president and introduced the speaker.

The Writers' Club will meet on Saturday, at 4:30. Discussion on membership and other business is to be conducted. All are requested to bring their manuscripts.

FRESH AIR
The careful housekeeper aims the house to keep it clean and keeps the odor of food banished as completely as possible.

HOLD DISHES LOW

A waitress should be instructed always to hold a dish low enough so that the guests may serve themselves without difficulty.

CARE OF ICE BOXES

Any food spoilt in an icebox should be thrown away at once. It should be wiped out weekly with lukewarm water in which boxes or soda has been placed.

Eve's Epigrams**Teacher Whips Boy and Then Boys Kill Teacher**

MARATHON K.C.—The 7-year-old school boys, angered because one had been whipped by their teacher, Bud Morgan, called him to the front door of his home and killed him with a baseball bat. Morgan was brought here last night from Hesler, county seat of Leslie county. The boys, aged at Morgan's home, 10 days ago, sighted him and wounded the younger lad in school that day. Morgan is survived by his widow and five children.

Cut in Prices

By Harry Farmer
It was the good team Eskimos
that were the cause of the
success of the last two
years. Little can
be done to stop him company,
And there they met some Ti-
tans and fees time and
time again. They beat
them and their teams
came along on good team
Saskatchewan. The Eskimos
had to go to Edmonton, however,
to meet the Caps.
And what a lot of fan
enthusiasm did the
Eskimos bring with them
and what a good team
they had set about
winning streak of great
team brought to an
end.

SENATORS DINE ON GOOSE EGGS

Winning Streak of Great Team Brought to an End

(Canadian Press) — OTTAWA, Dec. 16.—The Ottawa Senators drew the National Hockey League through the seasons, winning the Stanley Cup twice, and lost only once in the regular season. The team has been one of the greatest in the history of the league, which affiliated with a lot to be
done.

Gordon Bell, Head Coach, says the team has been the best in the league for the past three years. The team has won the Stanley Cup twice, and lost only once in the regular season. The team has been one of the greatest in the history of the league, which affiliated with a lot to be
done.

Mayor Elect Claims He's Fully Qualified

Canada Field Crop Values Down Slightly As Compared With 1925

Government Field Crop Estimate Better Than Year 1924

Canadian Press
OTTAWA, Dec. 17.—An estimate of the value of field crops of 1926 gives Thursday by the department bureau a figure of \$1,048,122,000, down from last year, but an increase over 1925.

For the whole of Canada the total value of the principal field crops of 1926 is estimated at \$1,048,122,000, as compared with \$1,048,122,000 in 1925 and \$985,225,800 in 1924.

The 1926 estimate is composed of the following items: wheat, \$412,000,000; barley, \$241,000,000 (\$97,751,600); oats, \$186,000,000; rye, \$120,000,000; other grains (peas, beans, buckwheat, flax, etc.), \$120,000,000; canola, \$120,000,000; root and tuber crops, \$120,000,000; corn, \$120,000,000; hay, fodder, cows and summer beans, \$120,000,000; and vegetables, \$120,000,000.

The estimated value of grain hay for 1926 is \$120,000,000, an increase of \$10,000,000 over the value of grain hay for 1925.

Wheat, oats, rye, canola, corn, etc., oats, \$186,000,000 (\$201,000,

CLARKE SENDS WARNING NOTE TO CITY HALL

Problem Likely be Discussed Before Swearing-In Formality

Mayor-Elect Bury, referring to the discussion on qualifications held at the Bulletin office, said he considers his election is legal. He takes the stand that his firm is entitled to representation because all members of the firm are individually assessed for tax, that nothing is said in the by-laws to the contrary.

That is the way the law reads, and under that law I am assessed the \$1200," he said.

Holding that mayor-elect A. G. Bury is qualified to hold that office and stating that any action taken by the council with Mr. Bury in the chair as mayor might be invalidated, and that those participating in that action might become personally liable in the matter, Joseph A. Clarke, former mayor of the date, has written letters to the City Clerk, aldermen and others interested, urging them to take independent advice in the matter before accepting Mr. Bury as the legally qualified and elected mayor.

"I have a certificate from the auditor of accounts showing Mr. Bury's name does not appear on the assessment rolls of the city at all," said Clarke.

Qualification Challenged
Mr. Bury's qualification as mayor or alderman was disputed by three of the charter. They must be assessed on the same basis as the rest of the community, and must appear on the assessment roll as well as on the business tax. The only place where Mr. Bury's name appears is under the heading of 'Business Tax' as his firm is paying a business tax on a building which he owns. Even if they were allowed to settle that there was, which they are not, Mr. Bury's name would not appear on the assessment rolls as he does not personally appear on the business tax. He was never disqualified at the time he was nominated and that every action taken by him since he was nominated as mayor, as mayor, can be declared illegal."

At the City Hall, receipt of the protest was acknowledged, and the attorney general, who was present among the aldermen and aldermen, said he had to be threshed out before the next meeting.

Two Benders Nixed
Robert Cawley, K.C., of Calgary, and J. W. McLean, of Edmonton, were among the two men who had been secured action to start a supreme court judge to start the protest against the election of Mr. Bury.

"We expect to have it started Saturday," said Mr. Cawley.

McBain Explains Protest

Although an official protest of naming Mr. Bury as mayor was filed by Mr. Cawley, Mr. McLean, Labor candidate to the Edmonton constituency, and Mr. James William Wilfred McBain, who was the Liberal nomination candidate in the elections, McBain declared this morning that he had no objection to the protest on Herlihy's election.

He had no objection to the protest filed by the solicitors.

"The protest is justified," he said,

"but the action was initiated and is being carried through by the C.G.A. and the Labor party. There is nothing personal in the matter."

"I should have been declared elected if the protest had been taking the necessary legal steps to obtain it."

Decision Expected Soon
It had been held any C.G.A. candidate could file a protest when the elimination took place between the two candidates, but the name of the candidate would have appeared on the protest. The whole thing was a farce, he said.

"There is no personal animosity between me and Mr. Bury."

He is expected that a decision of the protest will be reached in the next few days. Meanwhile City Clerk Cox has declared Herlihy duly elected.

EARLY HEARING ON COAL RATES WON'T BE HELD

Canadian Press

OTTAWA, Dec. 17.—The Board of Railway Commissioners Thursday afternoon refused the application of Alberta and Ontario to set an early date for the hearing of the coal rates case, and adjourned the hearing until early consideration of the freight rates on Alberta coal coming east.

NOT IMPOSSIBLE

C. J. Comptonsen, McBrown and Company, who are carefully weighing the pros and cons of the case, believe that a sufficient reason for suspending the freight rates investigation indefinitely is the fact that the coal situation in Alberta is progressing in a year and a half, and that the argument in the case is that the legislation at the time of the original application was not sufficient, and that later on developments emphasized this possibility the board might make a decision on the case but not until the meantime the application is adjourned.

TO TORONTO, Dec. 17.—What the result of the hearing of the coal rates case, Premier Howard Ferguson told reporters at the Canadian Club here.

ON LONG STANDING
Last February, Mr. Garland said the board had been instructed to order in council to prohibit the railroads from moving coal movements from the marshes to the interior of central Canada. Delays occurred and the commission had not undertaken to do so.

"United Canada is to be depended upon for coal for the next two years. It is necessary for the commission to report to time for the consideration of this proposal," said Mr. Garland.

Alberta may be through a representative committee to crave another than on an Alberta-Ontario basis," he said. "The Canadian Coal Council for Canadian Commerce was endeavoring to create favorable conditions for continued coal consumption."

More than \$100,000 was spent

in the construction of new docks and wharves for the importation of foreign coal.

ALL KINDS OF COAL

In Canada and in the Smoky River area there are 100 square miles of anthracite which is the surface coal mines in Alberta.

The present output in Alberta is 250,000 tons per month, but the mines were capable of twice that production without material additional.

MARKETS, GRAIN, FINANCIAL

WHEAT SALES FEATURELESS

Canadian Press

WINNIPEG, Dec. 17.—With only a few buyers in the market, nothing in the general news to influence active trade, the wheat market today was extremely featureless. Export trade was slack, offering light and medium wheat at 10 cents per bushel, closing 1 cent lower to unchaged close. December was quoted at 13½¢, May 13½, and July 13½. There was no change in the futures, and was under pressure from foreign buyers. Most buyers favored early lots. A little committee house buying and sales to producers were reported.

Light trade was reported in course grain, with a few buyers. Some cash markets were dull, with offerings light and spreads holding steady.
